

## *Beer/Wine Blending Unity Ceremony Script*

**Officiant:** We will now perform a ceremony to symbolize the couple's union (and to quench their thirst!).

Before us are three glasses. One represents [Partner 1] who has chosen a wine that perfectly balances sour and sweet. Much like their own personality. This wine will be joined by [Partner 2's] choice, a dry white wine that doesn't take any BS... *[This section can be modified to match the drink choices and personality traits of the couple!]*

I ask the couple to pour their glasses together into this chalice of unity, signifying the blending of their lives, their love, and in doing so --- we see that two unique, free individuals can become one and can compliment each other in the sweetest of ways.

I ask you now to drink of the unity cup, to drink in your new found union and to keep this chalice as a keepsake. It will serve to remind you of this moment, the blending together of two beings to create something even more beautiful, all the days of your life together.
