

Display Box/Memory Box Unity Ceremony Script

Officiant: In each of these 20 small envelopes, the couple has written out (and collected photos) of 20 special memories from their time so far together.

Today, on their wedding day, they will place these memories into a [shadow box](#) to be displayed in their home for the rest of their lives.

[The couple should now place their envelopes into the box and close it.]

Each year on the anniversary of this day, they will remove one envelope, open it up and rejoice in the memory of their early times together.

Let this box serve as a source of light and joy, and as a constant reminder in your home that you share between you a deep well of wonderful memories.

And let this also be a reminder that, going forward, you have the opportunity to create infinite new memories together.
