

Love Lock Unity Ceremony Script

[This script uses two padlocks and a chain but you can alter it to be simpler and use only one padlock if you wish.]

Officiant: The couple has chosen to perform a brief love lock and key ceremony to symbolize their union here today.

I present this chain, a circle, with no beginning and no end -- a symbol of infinity -- representing the couple's everlasting love and commitment to one another.

I ask each of you to now write your own names on your padlock.

[The couple should write their names on their locks.]

Today you came here of your own free will, entering into a union and promising to grow together, to support one another on this life's journey.

I ask that you now place your individual locks onto this circle, and turn the keys to the locks, and in doing so pledge to be united in trust, in partnership and friendship, and always in great love.

[At this point the couple will be asked to turn toward a predetermined spot where they would like to toss the keys. This can be at a specific individual -- tell them first! --- or simply onto the ground.]

Now I ask the couple to toss away their keys, the keys which have made this solemn pact, never to be used again to break this chain, this circle of love.
