

## *Unity Blanket/Quilt Ceremony Script*

**Officiant:** We'll now perform a unique ceremony that will require the help of several guests present here today.

Can I please ask *[lists guest names that the couple has specified]* to approach the altar with their gifts of fabric and place them in the box.

*[as the guests are placing their fabric in the box...]*

The couple has requested that these special pieces of fabric be placed in the box. Some represent special childhood memories. Some have been chosen for aesthetic purposes with the couple in mind.

In the coming weeks, they will be woven into a unity quilt, representing all of the memories and love that have come together in this room this evening -- years of love and affection -- in one blanket that will serve to envelope the couple.

It will protect them always during the long cold winters of their relationship... and offer warmth and comfort to visitors who come into their home.

This quilt will serve as an ever-lasting reminder that two are becoming one, that you have emerged from the love and comfort of your nearest and dearest. And that you are always to be comforted, and never alone.
