

## *Unity Puzzle Ceremony Script*

**Officiant:** We know that life can be confusing at times... that marriage offers us new and unique challenges, that before this couple lies years of obstacles that they shall need to face together with strength and compassion.

Today they begin this journey of building their lives together, taking each challenges piece by piece, one at a time, as they create something beautiful together, as one.

*[The officiant asks the couple to start piecing together the puzzle.]*

May this unity puzzle forever serve as a reminder in their homes of this day --- This day when they began the journey of two families, two pasts, two people --- becoming one. This day when they began to build their future together.
