

Wishing Stone Ceremony Script

Officiant: The couple has asked all guests present here today to offer your blessing of their coming union in the form of a wishing stone.

Please pick up your stone, hold it tight and put all the good vibes and energy you can muster into it! Think of one word (or maybe a few if you'd like!) that you want to wish for this couple and write it now on your stone.

[Make sure to have plenty of [metallic Sharpies](#) available.]

These stones will be collected into this jar, to be kept in the couple's home from this day forward, a constant reminder of the love and blessings in this space today.

[Assign someone or several people to be responsible for collecting the stones at this point and placing them in the jar. Or ask all of your guests to come forward single file and drop them in the jar themselves!]
